ContraVault AI

Reshaping the Indian Tendering Landscape saving 90% time
and increasing accuracy in finding, analyzing and submitting tenders

PRODUCT CAPABILITIES

Built for Bid Teams That Cannot Afford Mistakes

Go / No-Go Analysis

Qualify every tender opportunity based on fit, risk, capacity, and bid viability, all linked to the exact clause.

Risk & Contradiction Detection

ContraVault AI scans the full tender pack for risks, ranks them based on cost impact and likelihood.

Multi-Document Analysis

Analyse corrigenda, addendums, BOQs, and technical specs simultaneously -with cross-reference awareness.

Submission Readiness

Form identification, compliance checklist generation, and document packaging -structured for final submission.

AI Tender Synopsis

Get a clear summary of scope, requirements, deadlines, eligibility, and risks from the full tender pack.

Smart AI Search

Query any clause, spec, or condition across hundreds of pages in seconds. No manual scrolling.

Pre-Bid Clarification Support

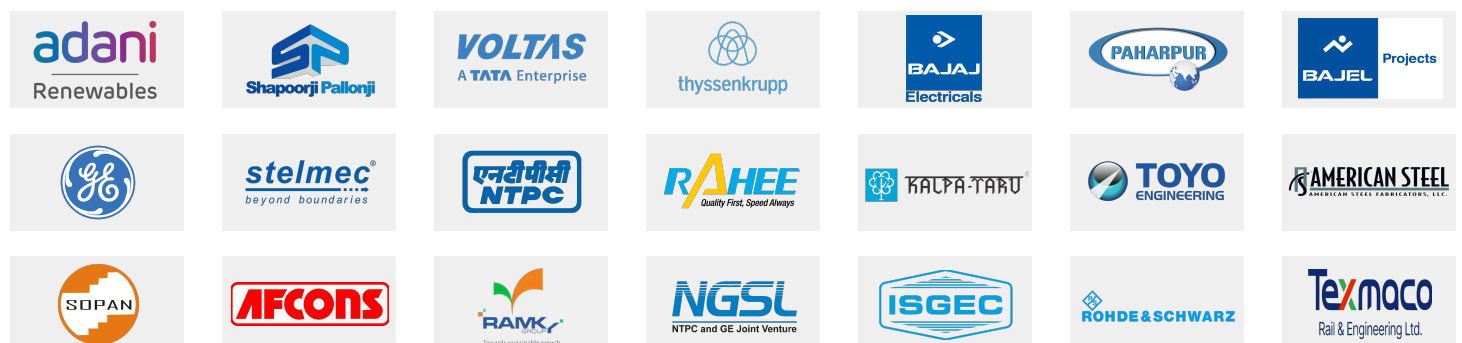

Auto-generate pre-bid queries from gaps and ambiguities found during document review.

Visualise Tender Analysis Clearly

Turn tender analysis into clear reports, visuals, and scenario comparisons.

TRUSTED BY

Leading Names Across EPC, Infrastructure & Engineering

60+ enterprise organisations across India and globally rely on ContraVault AI for their most critical tender workflows.

SECURITY & COMPLIANCE

Enterprise-Grade. Audit-Ready. Private by Design.

- 1

Encryption in transit & at rest
All tender data is encrypted end-to-end. Nothing moves without protection.
- 2

Role-based access & audit trails
Granular access controls with full activity logging -built for enterprise governance.
- 3

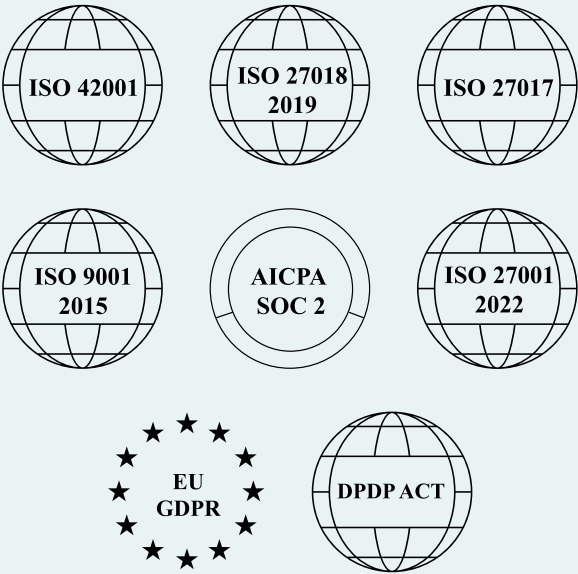

Zero Data Retention on LLMs
AI models are configured for zero data retention. Your documents are never used for training.
- 4

Private & VPC deployment options
Deploy within your own cloud environment for maximum data sovereignty.
- 5

Compliance-ready
ISO 27001, SOC 2, EU GDPR, DPDP Act compliant. NDAs and DPAs available on request.
- 6

Enterprise onboarding
Joint IT/InfoSec review before go-live. Supports full security questionnaires end-to-end.

Tender documents contain commercially sensitive information. ContraVault AI is built with that in mind -from day one.

CUSTOMER TESTIMONIALS

"Speeds Up the Entire Tendering Process"

ContraVault AI can save a lot of manual effort that goes into reading, analysing, and evaluating tenders. It can definitely speed up the tendering process.

Ranjit Gajare
Chief Growth Officer, Sterling and Willson

"Empowers Competitive Bidding with Precision"

We have introduced ContraVault AI, the AI-based software in our organization. We have found the same is easy to use and its unique features helping us to make our tendering process faster and more accurate.

Mr. Arun Singhania
CFO at Paharpur Cooling Towers
